3rd International Education Conference: Making Science Real in Schools

The MARCH (MAking science Real in sCHools) project invites educators, policy makers, researchers and science teachers to its 3rd international conference. The conference will look to the future of education, and will include discussion sessions on 'best practices' both inside and out of the classroom, a panel debate on the future of science education and a chance to interact with experts in education from around the world.

LONDON, 15 NOVEMBER 2016
ENTRANCE IS FREE
